Bring people *together.*

Five practical ways to get involved

01

Team or sponsored challenge

Choose a walk, run or personal challenge with a realistic date and target. Share a fundraising page and post a short progress update. Ask colleagues or friends to take part at a level that suits them.

02

Quiz or coffee morning

Use an existing venue or gathering. Agree the arrangements with the host, explain how money will be raised and make the donation link easy to find. Keep costs manageable and tell supporters about any deductions.

03

Christmas jumper day

Invite colleagues or a club to wear something festive and make an optional donation. Share the Christmas voucher appeal and the charity link. Ask us about timing before choosing a collection date.

04

Match the team

A business can agree to match staff donations up to a stated limit. Set a start and end date, explain what will be matched and confirm the final matched amount when paying it over.

05

Donate from a named product

Choose a product or service and agree a fixed amount or percentage to donate from each eligible sale. Tell customers exactly which purchases count and the dates. Contact us before launching so we can agree how our name will be used.

06

Choose what fits

Start small. Decide who is organising, what you need to spend and how donations reach the charity. Use the event poster, copy sheet and thank-you template. Help with planning: contact@impactbuckingham.com
